AMUSEMENTS

"THE FOOLISH MATRONS" AT THE BUTLER TODAY

One of the scenes in Maurice Tourneur's super-drama, "The Foolish Matrons," which will be the attraction at the Butler theatre today, shows an exclusive cafe in the fashionable quarter of New York city. It is not the sort of cafe, however, that advertises its peerless cabaret and other exclusive features. Behind the granite and glass of New York there are countless cafes where advertising would only detract from their business. It is one of those cafes where men-about-town frequent with young women who would not be seen in the generally known places.

Here, under the spell of seductive lights and enchanting music, mingled with the tinkling of sparkling glass and soft words, the goddess of profligacy reigns, unseen and unthought of by the countless young women who are lured to the apparently innocent places of enjoyment.

It is here that Delta May, in the role of Georgia Wayne, is lured by the man who poses as her husband's friend. It all appears so innocent, this trap that is set for the young bride, that she does not realize the folly of it all until, just at the crucial moment when her real happiness seems assured, the crash comes which tears her from her husband and casts her down into the crevice of blasted hopes.

The story of Georgia Wayne is one that will burn into the heart of the countless young girls who are now facing the same problems of life. Tomorrow, "The Golden Trail," with Jane Novak and Jack Livingston.

FLOWING WELL WILL IRRIGATE HUGE ACREAGE

The Pahump district is rapidly gaining in popular favor as an agricultural district. The announcement that the Artesian well upon which drilling was started a few weeks ago had encountered a flow of water approximating 75 miners' inches, means that the valley is destined to become one of the most prolific agricultural and fruit-producing sections in the west.

This great flow of water, which will have an irrigating capacity of 150 acres of the most fertile land in this state, was encountered at a depth of approximately 400 feet, and has already proved an incentive for owners of land in that section to proceed with the drilling of wells to secure water for irrigation purposes. The Tonopah & Tidewater Railroad company has in process of drilling five wells at the Leland experimental station and no great distance from the holdings of the Pahump Valley Ranch company, and it is hoped to strike a flow of water in a comparatively short time.

The flowing well which has been encountered is located one mile south of the land owned by the Pahump Valley Ranch company, of which Fred Shoup serves as superintendent. It is stated that numerous wells will be started by owners of land in that vicinity in the near future.

OLD-TIME PROSPECTOR GOES OUT TO ROYSTON

Charles Corr, old-time prospector of Tonopah, left this morning for Royston, where he holds a number of locations in the San Antonio district. He says he has secured a lease on a promising block of ground on a certain property, but that it is his intention to do some prospecting for about 30 days before he starts leasing operations, as he is confident that he can find some good prospects.
